KLM POWER AUDIO  TM

BLACK ANTT

MINI

THE POWER BEHIND YOUR TONE

SILENT PERFORMANCE

No hum.
Just Pure Tone.

HIGH CURRENT POWER

1000mA on every output
for modern digital pedals

RELIABLE. RUGGED.

Built tough for the road
and made to perform,
Every Time.

UNIVERSAL POWER

Works anywhere,
with 87 ~ 285 V_{AC} input.
Plug n Play.

POWER THAT PERFORMS

- 6 Fully Isolated Outputs
- 9V @ 1000mA per Output
- 6000mA Total Current Capacity
- Galvanic Isolation on Every Output
- < 0.0006 V DC ripple at Full Load
- Active EMI + RFI suppression
- Universal Operation | 87 ~ 285 VAC Input
- Short Circuit & Overload Protection
- Ultra Green Operation | 99.6% Efficiency
- Durable Aluminium Enclosure

WHY MUSICIANS LOVE IT

- SILENT, NOISE FREE PERFORMANCE**
Hear your music, not your power supply
- 1000mA OF CLEAN POWER PER OUTPUT**
Ready for high-demand digital pedals, independent capacity ensures no brown-outs
- FULLY ISOLATED OUTPUTS**
No GROUND Loops, no interference, no inter-pedal interaction
- STABLE. RELIABLE. TOUR READY.**
Ruggedized build for the road. Ready for every show, night after night, Anywhere you go.
- MORE TONE. LESS WORRY.**
Focus on playing. We've got the power - 6000mA of it, fully regulated, constant voltage

BUILT FOR YOUR BOARD

ISOLATED OUTPUTS
9V | 1000mA

THE PROMISE

Great performances start long before the first note is played. BLACK ANTT MINI delivers ultra-clean, isolated power designed for musicians who depend on their pedals every single night. No hum. No interference. No compromises. Just reliable power that lets your creativity take centre stage.

Play with confidence. Focus on your music. We've got the power.

BLACK ANTT

PRO

THE POWER BEHIND YOUR TONE

SILENT PERFORMANCE

No hum.
Just Pure Tone.

HIGH CURRENT POWER

1000mA on every output
for modern digital pedals

RELIABLE. RUGGED.

Built tough for the road
and made to perform,
Every Time.

UNIVERSAL POWER

Works anywhere,
with 87 ~ 285 V_{AC} input.
Plug n Play.

POWER THAT PERFORMS

- 15 Fully Isolated Outputs
- 9V @ 1000mA per Output
- 15000mA Total Current Capacity
- Galvanic Isolation on Every Output
- < 0.0006 V DC ripple at Full Load
- Active EMI + RFI suppression
- Universal Operation | 87 ~ 285 VAC Input
- Short Circuit & Overload Protection
- Ultra Green Operation | 99.6% Efficiency
- Durable Aluminium Enclosure

THE PROFESSIONAL STAGE DREAM

SILENT, NOISE FREE PERFORMANCE

Hear your music, not your power supply

15 OUTPUTS | 1000mA EACH OUTPUT

Ready for large format touring gigs, full scale processor
and pedal complements.

FULLY ISOLATED OUTPUTS

No GROUND Loops, no interference, no inter-pedal interaction

STABLE. RELIABLE. TOUR READY.

Ruggedized build for the road. Ready for every show,
night after night, Anywhere you go.

MORE TONE. LESS WORRY.

Focus on playing. We've got the power - 15000mA of it,
fully regulated, constant voltage output.

PERFECT

TECHNICAL SPECIFICATIONS

BLACK ANTT MINI

BLACK ANTT PRO

Number of Outputs	6	15
Output Isolation	Fully Isolated	
Output Voltage	9V DC	
Output Current	1000mA Per Output	
Total Available Current	6000mA	15000mA
Output Ripple	< 0.0006V DC at Full Load	
Input Voltage	87-285 VAC	
Input Frequency	50/60Hz	
Isolation Method	Galvanic Isolation	
EMI / RFI Filtering	Active Suppression Architecture	
Protection	Short Circuit / Overload	
Efficiency	Up to 99.6%	
Chassis Material	Aluminium	
Intended Use	Professional Pedalboards
